CONTENTS

PART 1 JANUARY 2001

Mycological Research News 1
Editorial news – In this issue – New *Phytophthora* linked to sudden death of oaks – Phylogeny of *Agaricales* re-examined – Permanent slides

Analysis of partial *Glomales* SSU rRNA gene sequences: implications for primer design and phylogeny
A. Schüßler, H. Gehrig, D. Schwarzott & C. Walker 5

Molecular systematics supports the recognition of an additional order of *Ascomycota*: the *Agyriales*
H. T. Lumbsch, I. Schmitt, H. Döring & M. Wedin 16

Characterisation of dark septate endophytic fungi (DSE) using inter-simple-sequence-repeat-anchored polymerase chain reaction (ISSR–PCR) amplification
C. R. Grünig, T. N. Sieber & O. Holdenrieder 24

Diversity of isolates of *Rhizoctonia solani* AG-1 1A and their relationship to other anastomosis groups based on pectic zymograms and molecular analysis
S. Banniza & M. A. Rutherford 33

Systematics of *Paraphaeosphaeria*: a molecular and morphological approach
M. P. S. Câmara, M. E. Palm, P. van Berkum & E. L. Stewart 41

Sequence variation and geographic distribution of pseudoflower-forming rust fungi (*Uromyces pisi s. lat.*) on *Euphorbia cyparissias*
M. Pfunder, S. Schürch & B. A. Roy 57

Strain discrimination by fungal antagonists of *Colletotrichum musae*: implications for biocontrol of crown rot of banana
U. Krauss, P. Matthews, R. Bidwell, M. Hocart & F. Anthony 67

Epicoccum purpurascens for biocontrol of *Sclerotinia* head rot of sunflower
F. L. Pieckenstain, M. E. Bazzalo, A. M. I. Roberts & R. A. Ugalde 77

Genetic and pathogenic variation among cereal, medic and sub-clover isolates of *Pythium irregulare*
P. R. Harvey, P. J. Butterworth, B. G. Hawke & C. E. Pankhurst 85

Genetic diversity of *Cryphonectria cubensis* isolates in South Africa
S. W. van Heerden & M. J. Wingfield 94

Comparative analysis of polygalacturonases in isolates of seven species of *Fusarium* from *Pinus pinea*
M. L. Posada, B. Patiño, S. Mirete, M. C. Muñoz, C. Vázquez & M. T. González-Jaén 100

Influence of amino acids on biomass production by ericoid mycorrhizal endophytes from *Woollsia pungens* (*Epacridaceae*)
S. P. Whittaker & J. W. G. Cairney 105

Intraspecific competition in two unit-restricted fungal decomposers, *Coprinus cinereus* and *C. congregatus*
J. P. Schmit 112

Pycnothyrium ultrasctucture in *Tubakia dryina*
J. Taylor 119

Observations on the genus *Cresporhaphis* (*Trichosphaeriaceae*), with a key to the known species, and *C. ulmi* sp. nov.
V. Calatayud & B. Aguirre-Hudson 122

Book reviews
Fungal Strategies of Wood Decay in Trees – Mycorrhizas in Developing Countries 127

PART 2 FEBRUARY 2001

Mycological Research News 129
In this issue – Together but not forever: ectomycorrhizal symbiosis is an unstable affair – The SEM and cellular organization

Catastrophic wall rupture during conidial germination of a genetically tagged mutant of *Glomerella graminicola*
L. Epstein, S. Bartnicki-Garcia, E. Lippman, S. Bassein & A. Amnuaykanjanasi 132

Specificity, sensitivity and discrimination of primers from PCR-RFLP of larger basidiomycetes and their applicability to identification of ectomycorrhizal fungi in *Eucalyptus* forests and plantations
M. Glen, I. C. Tommerup, N. L. Bougher & P. A. O'Brien 138

Biolistic transformation of *Cercospora caricis*, a specific pathogenic fungus of *Cyperus rotundus*
R. Aly, N. Halpern, B. Rubin, E. Dor, S. Golan & J. Hershenhorn 150

Use of flow cytometry, fluorescence microscopy, and PCR-based techniques to assess intraspecific and interspecific matings of *Armillaria* species
M.-S. Kim, N. B. Klopfenstein, G. I. McDonald, K. Arumuganathan & A. K. Vidaver 153

Infrageneric phylogeny of *Collybia s. str.* based on sequences of ribosomal ITS and LSU regions
K. W. Hughes, R. H. Petersen, J. E. Johnson, J.-M. Monclavo, R. Vilgalys, S. A. Redhead, T. Thomas & L. L. McGhee 164

RAPD analysis of the sexual state and sterile mycelium of the fungus cultivated by the leaf-cutting ant *Acromyrmex hispidus fallax*
F. C. Pagnocca, M. Bacci jr, M. H. Fungaro, O. C. Bueno, M. J. Hebling, A. Sant'anna & M. Capelari 173

Differential protein expression in the fruiting dikaryon and non-fruiting monokaryon of *Flammulina velutipes*
Y. Sakamoto, A. Ando, Y. Tamai, K. Miura & T. Yajima 177

A highly diverse population of *Heterobasidion annosum* in a single stump of *Picea abies*
G. Swedjemark & J. Stenlid 183

Purification and characterization of lipoxygenases from the thermophilic fungus *Thermomyces lanuginosus*
D.-C. Li, Z.-W. Lui & J. Lu 190

Cell wall degrading enzyme secretion by *Colletotrichum acutatum*, the causative fungus of secondary leaf fall of *Hevea brasiliensis*
T. H. P. S. Fernanco, C. K. Jayashinghe & R. L. C. Wijesundera 195

Mycorrhizal association of the extinct conifer *Metasequoia milleri*
R. A. Stockey, G. W. Rothwell, H. D. Addy & R. S. Currah 202

Computerized image analysis in *Fusarium* taxonomy
S. Gottwald, C. U. Germeier & W. Ruhmann 206

Hygrophoraceae (*Agaricales*) of the Greater Antilles: *Hygrocybe* subgenus *Pseudohygrocybe* section *Firmae*
S. A. Cantrell & D. J. Lodge 215

Yelsemia arthropodii gen. et sp. nov. (*Tilletiales*) on *Arthropodium* in Australia
J. Walker 225

Aspergillus pseudotarmarii, a new aflatoxin producing species in *Aspergillus* section *Flavi*
Y. Ito, S. W. Peterson, D. T. Wicklow & T. Goto 233

Ophiostoma africanum sp. nov., and a key to ophiostomatoid species from *Protea* infructesences
G. J. Marias & M. J. Wingfield 240

Fungi from Mauritius: four new ascomycetes on native plants
R. Dulymamode, P. F. Cannon, A. Sivanesan & A. Peerally 247

Book reviews 255
Mycorrhizes in Developing Countries – Compendium of Sorghum Diseases – Compendium of Citrus Diseases

PART 3 MARCH 2001

Mycological Research News 257
In this issue – *Evolution of* Epichloë *endophytes on rye grasses – Implications of the cyclosporin experience for bioprospecting*

Agrobacterium tumefaciens-mediated transformation of *Fusarium circinatum*
S. F. Covert, P. Kapoor, M. Lee, A. Briley & C. J. Nairn 259

ITS sequence data suggest variability of ascus types and support ontogenetic characters as phylogenetic discriminators in the *Agyriales* (*Ascomycota*)
H. T. Lumbsch, I. Schmitt, H. Döring & M. Wedin 265

The phylogeny and evolution of the genus *Claviceps*
S. Pažoutová 275

A widely distributed ITS polymorphism within a biological species of the ectomycorrhizal fungus *Hebeloma velutipes*
D. K. Aanen, T. W. Kuyper & R. F. Hoekstra 284

Chemical and morphological segregation of *Alternaria alternata, A. gaisen* and *A. longipes*
B. Andersen, E. Krøger & R. G. Roberts 291

Genetic variability in the pistachio late blight fungus, *Alternaria alternata*
M. K. Aradhya, H. M. Chan & D. E. Parfitt 300

Genetic variation within the insect-pathogenic genus *Entomophthora*, focusing on the *E. muscae* complex, using PCR–RFLP of the ITS II and the LSU rDNA
A. B. Jensen & J. Eilenberg 307

Trichoderma aureoviride: phylogenetic position and characterization
E. Lieckfeldt, C. M. Kullnig, C. P. Kubicek, G. J. Samuels & T. Börner 313

Intraspecific variation in *Mycocalicium subtile* (*Mycocaliciaceae*) elucidated by morphology and the sequences of the ITS1-5.8S-ITS2 region of rDNA
M. de L. Angeles Vinuesa, J. M. Sanches-Puelles & L. Tibell 323

Common nuclear ribosomal internal transcribed spacer sequences occur in the sibling species *Ophiostoma piceae* and *O. quercus*
S. H. Kim & C. Breuil 331

The occurrence of an undescribed species of *Venturia* in blighted shoots of *Populus tremula*
R. Kasanen, J. Hantula & T. Kurkela 338

The infection process of *Alternaria cirsinoxia* on Canada thistle (*Cirsium arvense*) and host structural defence responses
S. Green, K. L. Bailey & J. P. Tewari 344

Characterisation of a xylanase gene from *Cochliobolus sativus* and its expression
K. Emami & E. Hack 352

Analysis of a genomic clone of hydrophobin (*ssgA*) from the entomopathogenic fungus *Metarhizium anisopliae*
M. J. Bidochka, J. de Koning & R. J. St Leger 360

Intraspecific isozyme variability in Italian populations of the white truffle *Tuber magnatum*
G. Frizzi, G. Lalli, M. Miranda & G. Pacioni 365

RAPD characterisation of heterogeneity in spore progenies and sexuality in the genus *Agaricus*
L. A. Calvo-Bado, M. P. Challen, C. F. Thurston & T. J. Elliott 370

Antarctomyces psychotrophicus gen. et sp. nov., a new ascomycete from Antarctica
A. M. Stchigel, J. Cano, W. MacCormack & J. Guarro 377

Book reviews
Advances in Rice Blast Research – Illustrated Dictionary of Mycology – Yeasts: characteristics and identification – A Checklist of the Rust Fungi of the British Isles 383

PART 4 APRIL 2001

Mycological Research News 385
In this issue – Altruism within *Dictyostelium* colonies – Do lichens protect or damage stonework?

Diversity and occurrence of coprophilous fungi
M. J. Richardson 387

Phylogenetic relationships in *Auriculariales* and related groups – hypotheses derived from nuclear ribosomal DNA sequences
M. Weiss & F. Oberwinkler 403

The *Georgefischeriales*: a phylogenetic hypothesis
R. Bauer, D. Begerow, A. Nagler & F. Oberwinkler 416

ITS rDNA phylogeny of selected *Mycosphaerella* species and their anamorphs on *Myrtaceae*
P. W. Crous, L. Hong, B. D. Wingfield & M. J. Wingfield 425

DNA studies in the *Galerina marginata* complex
G. Gulden, S. Dunham & J. Stockman 432

Production, germination and infectivity of chlamydospores of *Rhynchosporium alismatis*
V. Lanoiselet, E. J. Cother, G. Ash & R. van de Ven 441

Molecular analysis of intraspecific variation between building and 'wild' isolates of *Serpula lacrymans* and their relatedness to *S. himantioides*
N. A. White, P. K. Dehal, J. M. Duncan, N. A. Williams, J. S. Gartland, J. W. Palfreyman & D. E. L. Cooke 447

The phylogenetic position of selected lichenicolous fungi: *Hobsonia, Illosporium,* and *Marchandiomyces*
M. Sikaroodi, J. D. Lawrey, D. L. Hawksworth & P. T. DePriest 453

An hydroxynaphthalene reductase gene from a wood-staining fungus *Ophiostoma floccosum* complements the buff phenotype in *Magnaporthe grisea*
R. Eagen, S. H. Kim, J. W. Kronstad & C. Breuil 461

Detection of chitin synthase class I and II type sequences in six different arbuscular mycorrhizal fungi and gene expression in *Glomus intraradices*
E. Ubalijoro, C. Hamel, C. R. McClung & D. L. Smith 470

Isolation and characterisation of fungi growing on volatile aromatic hydrocarbons as their sole carbon and energy source
F. X. Prenafeta-Boldú, A. Kuhn, D. M. A. M. Luykx, H. Anke, J. W. van Groenestijn & J. A. M. de Bont 477

Airborne concentrations of conidia of *Erynia neoaphidis* above cereal fields
F. Hemmati, J. K. Pell, H. A. McCartney & M. L. Deadman 485

Three new species of *Leptographium* from pine
K. Jacobs, M. J. Wingfield, A. Uzunovic & S. Frisullo 490

Fungi on *Juncus roemerianus*: new coelomycetes with notes on *Dwayaangam junci*
J. Kohlmeyer & B. Volkmann-Kohlmeyer 500

Mortierella tsukubaensis sp. nov. from Japan, with a key to the homothallic species
T. Watanabe, Y. Watanabe, T. Fukatsu & R. Kurane 506

The *Sphaerella* species described from *Hymenophyllaceae* (filmy ferns) belong to *Strigula* and *Trichothelium* (lichenized ascomycetes)
A. Aptroot & R. Lücking 510

PART 5 MAY 2001

Mycological Research News 513
In this issue – Lessons from a 21-year study of fungal fruiting

Species richness, abundance, and phenology of fungal fruit bodies over 21 years in a Swiss forest plot
G. Straatsma, F. Ayer & S. Egli 515

Intraspecific variation in fruiting phenology in an ectomycorrhizal *Laccaria* population under Douglas fir
M.-A. Selosse, F. Martin & F. Le Tacon 524

Differences in teliospore germination patterns of *Microbotryum violaceum* from European and North American *Silene* species
M. E. Hood, O. J. Rocha & J. Antonovics 532

Genetic diversity among mycelial compatibility groups of *Sclerotium rolfsii* (telemorph *Athelia rolfsii*) and *S. delphinii*
Z. K. Punja & L.-J. Sun 537

Designation of the EAN and NAN races of *Ophiostoma novo-ulmi* as subspecies
C. M. Brasier & S. A. Kirk 547

Molecular evidence suggests that *Ceratobasidium bicorne* has an anamorph known as a conifer pathogen
A. M. Hietala, J. Vahala & J. Hantula 555

Detection of fungi *in planta*: effectiveness of surface sterilization methods
A. Reissinger, V. Vilich & R. A. Sikora 563

Quantification of *Ulocladium atrum* in necrotic plant tissues by monoclonal antibody-based enzyme-linked immonosorbent assay
N. Karpovich-Tate & F. M. Dewey 567

A gradient analysis of communities of macrofungi and slime moulds on decaying beech logs
J. Heilmann-Clausen 575

The effect of storage environment on the longevity of conidia of *Beauveria bassiana*
T. D. Hong, J. Gunn, R. H. Ellis, N. E. Jenkins & D. Moore 597

Morphological variations in oidium formation in the basidiomycete *Coprinus cinereus*
E. Polack, M. Abei & U. Kües 603

Effects of fungicides on *Tuber borchii* and *Hebeloma sinapizans* ectromycorrhizas
A. Zambonelli & M. Iotti 611

Ultrastructural studies of *Trematosphaeria malaysiana* sp. nov. and *Leptosphaeria pelagica*
T. A. McKeown, S. A. Alias, S. T. Moss & E. B. G. Jones 615

Brunneosporella aquatica gen. et sp. nov. *Aqualignicola hyalina* gen. et sp. nov., *Jobellisia viridifusca* sp. nov. and *Porosphaerellopsis bipolaris* sp. nov. (ascomycetes) from submerged wood in freshwater habitats
V. M. Ranghoo, C. K. M. Tsui & K. D. Hyde 625

Lichenopyrenis galligena (*Pleomassariaceae*), a new genus of gall-forming lichenicolous fungi on *Leptochidium*
V. Calatayud, M. J. Sanz & A. Aptroot 634

Book reviews 638
The Mycota – The Fifth Kingdom on CD-ROM – Guide to the Literature for the Identification of British Basidiomycetes – Lichens: an illustrated guide to the British and Irish species – Biology of Dermatophytes and other Keratinophilic Fungi

PART 6 JUNE 2001

Mycological Research News 641
In this issue – *Micropeltopsis quinquecladiopsis* belongs in *Lichenopeltella* – A record number of ascomycetes on one tree – Pathogenic and ecological roles of fungal melanins

The perennial ryegrass endophyte *Neotyphodium lolii* genetically transformed with the green fluorescent protein gene (*gfp*) and visualization in the host plant
L. Mikkelsen, N. Roulund, M. Lübeck & D. Funck Jensen 644

ITS and β-tubulin phylogeny of *Phaeoacremonium* and *Phaeomoniella* species
M. Groenwald, J.-C. Kang, P. W. Crous & W. Gams 651

Phylogenetic relationships among *Neofabraea* species causing tree cankers and bull's-eye rot of apple based on DNA sequencing of ITS nuclear rDNA, mitochondrial rDNA, and the β-tublin gene
S. N. de Jong, C. A. Lévesque, G. J. M. Verkley, E. C. A. Abeln, J. E. Rahe & P. G. Braun 658

Sequence analysis of the 5.8S rDNA and ITS regions in evaluating genetic relationships among some species of *Hypoxylon* and related genera
A. Mazzaglia, N. Anselmi, S. Vicario & A. Vannini 670

Outcrossing or inbreeding: DNA markers provide evidence for type of reproductive mode in *Phellinus nigrolimitatus* (*Basidiomycota*)
H. Kauserud & T. Schumacher 676

Identification of two powdery mildew fungi, *Oidium neolycopersici* sp. nov. and *O. lycopersici*, infecting tomato in different parts of the world
L. Kiss, R. T. A. Cook, G. S. Saenz, J. H. Cunnington, S. Takamatsu, I. Pascoe, M. Bardin, P. C. Nicot, Y. Sato & A. Y. Rossman 684

Characteristics of intracellular peptidase and proteinase activities from the mycelium of a cord-forming wood decay fungus, *Serpula lacrymans*
S. C. Watkinson, K. S. Burton & D. A. Wood 698

Development of *Pyrenopreziza brassicae* apothecia on agar and oilseed rape debris
T. Gilles, A. M. Ashby, B. D. L Fitt & T. Cole 705

Conidial discharge in the aphid pathogen *Erynia neoaphidis*
F. Hemmati, J. K. Pell, H. A. McCartney, S. J. Clark & M. L. Deadman 715

The ontogeny of the fruit bodies of *Mycena stylobates*
V. Walther, K.-H. Rexer & G. Kost 723

The heterobasidiomycete moss parasites *Jola* and *Eocronartium* in culture: cytology, ultrastructure, and anamorph
E. M. Frieders & D. J. McLaughlin 734

Scanning electron microscopy of germinated ascospores of *Monosporascus cannonballus*
M. M. Waugh, M. E. Stanghellini & D. Kim 745

Spatiotemporal diversity of filamentous fungi in the hypersaline Dead Sea
T. Kis-Papo, I. Grishkan, A. Oren, S. P. Wasser & E. Nevo 749

New species of smut fungi from the neotropics
M. Piepenbring 757

Book reviews 768
Slayers, Saviors, Servants and Sex – Detection and Isolation of Soil Fungi

PART 7 JULY 2001

Mycological Research News 769
In this issue – Confusion abounds over identities of *Trichoderma* biocontrol isolates – All change in *Coprinus* – Stop press

Natural groups and a revised system for the European poroid *Hymenochaetales* (*Basidiomycota*) supported by nLSU rDNA sequence data
T. Wagner & M. Fischer 773

Molecular phylogeny of the *Bacidiaceae* (*Lecanorales*, lichenized *Ascomycota*)
S. Ekman 783

Muribasidiospora: *Microstromatales* or *Exobasidiales*?
D. Begerow, R. Bauer & F. Oberwinkler 798

Phylogenetic studies of *Ephelis* species from various locations and hosts in Asia
E. Tanaka, S. Kawasaki, K. Matsumura, R. Kusuda, C. Tanaka, Y.-L. Peng, T. Tsukiboshi & M. Tsuda 811

Characterisation of a β-tubulin gene from *Melampsora lini* and comparison of fungal β-tubulin genes
M. A. Ayliffe, P. N. Dodds & G. J. Lawrence 818

Molecular evidence for the anamorph-telemorph connection in *Cordyceps sinensis*
Z.-Y. Liu, Y.-J. Yao, Z. Q. Liang, A.-Y. Liu, D. N. Pegler & M. W. Chase 827

Clonal and sexual propagation in *Botrytis elliptica*
J. Huang, T.-F. Hsieh, G. A. Chastagner & T. Hsiang 832

Interspecific and intraspecific variation of ectomycorrhizal fungi associated with *Eucalyptus* ecosystems as revealed by ribosomal DNA PCR–RFLP
M. Glen, I. C. Tommerup, N. L. Bougher & P. A. O'Brien 842

Soil water potential shifts: developmental responses and dependence on phosphorus translocation by the saprotrophic, cord-forming basidiomycete *Phanerochaete velutina*
J. M. Wells, J. Thomas & L. Boddy 859

Cold-induced proteins in cold-active isolates of the insect-pathogenic fungus *Metarhizium anisopliae*
J. N. A. De Croos & M. J. Bidochka 868

Effect of UV-B on conidia and germlings of the entomopathogenic hyphomycete *Metarhizium anisopliae*
G. U. L. Braga, S. D. Flint, C. L. Messias, A. J. Anderson & D. W. Roberts 874

Heavy metals and thiol compounds in *Mucor racemosus* and *Articulospora tetracladia*
J. Miersch, M. Tschimedbalshir, F. Bärlocher, Y. Grams, B. Pierau, A. Schierhorn & G.-J. Krauss 883

Fossilised fungal mycelium from Tertiary Dominican amber
J. Rikkinen & G. O. Poinar jr 890

PART 8 AUGUST 2001

Mycological Research News 897
In this issue – Implications for nitrogen additions from air pollutants on litter decay fungi and ecosystem processes – *Mucorales* found to be a mixed bunch – Artificial hybrid provides clue to enhanced pathogenicity – Erratum

Major lineages of *Dothideomycetes* (*Ascomycota*) inferred from SSU and LSU rDNA sequences
H. T. Lumbsch & R. Lindemuth 901

Phylogenetic structure of the genus *Leveillula* (*Erysiphales: Erysiphaceae*) inferred from the nucleotide sequence of the rDNA ITS region with special reference to the *L. taurica* species complex
S. A. Khodaparast, S. Takamatsu & G.-A. Hadjaroude 909

Differentiation of *Botryosphaeria* species and related anamorphic fungi using Inter Simple or Short Sequence Repeat (ISSR) fingerprinting
S. Zhou, D. R. Smith & G. R. Stanosz 919

Genetic drift and host-mediated selection cause genetic differentiation among *Gaeumannomyces graminis* populations infecting cereals in southern Australia
P. R. Harvey, P. Langridge & D. R. Marshall 927

Applications of AFLP and ISSR techniques in detecting genetic diversity in the soybean brown stem rot pathogen *Phialophora gregata*
X. Meng & W. Chen 936

Genetic diversity in populations of the *Pleurotus eryngii* complex in Israel
D. Lewinsohn, E. Nevo, S. P. Wasser, Y. Hadar & A. Beharav 941

Development of a Polymerase Chain Reaction (PCR) assay for the specific detection of *Biscogniauxia mediterranea* living as an endophyte in oak tissues
A. Mazzaglia, N. Anselmi, A. Gasbarri & A. Vannini 952

The disparity between the number of ectomycorrhizal fungi and those producing fruit bodies in a *Pinus densiflora* stand
A. Yamada & K. Katsuya 957

Distribution and persistence of *Amanita muscaria* genotypes in Australian *Pinus radiata* plantations
N. A. Sawyer, S. M. Chambers & J. W. G. Cairney 966

Distribution and persistence of Australian *Pisolithus* species genets at native sclerophyll forest field sites
I. C. Anderson, S. M. Chambers & J. W. G. Cairney 971

Characteristics of glutamine uptake by two Australian *Pisolithus* species
I. C. Anderson, S. M. Chambers & J. W. G. Cairney 977

A non-destructive immunoblotting technique for visualisation and analysis of the growth dynamics of *Rhizoctonia solani*
D. J. Bailey, C. R. Thornton, F. M. Dewey & C. A. Gilligan 983

Structural features of a *Lophodermium* endophyte during the cryptic life-cycle phase in the foliage of *Pinus strobus*
R. J. Deckert, L. H. Melville & R. L. Peterson 991

Formation, production and viability of oospores of *Phytophthora infestans* from potato and *Solanum demissum* in the Toluca Valley, central Mexico
W. G. Flier, N. J. Grünwald, W. E. Fry & L. J. Turkensteen 998

Ascogenous hyphae in foliicolous species of *Arthonia* and allied genera
M. Grube & R. Lücking 1007

Are teleomorphs really necessary?: modelling the potential effects of Mullers' Ratchet on deuteromycetous entomopathogenic fungi
M. J. Bidochka & J. de Koning 1014

Tripospora militaris sp. nov. from Argentina, with a key to the known species
M. D. V. Catania & A. I. Romero 1020

PART 9 SEPTEMBER 2001

Mycological Research News 1025
In this issue – What *Phytophthora infestans* race caused the Irish Potato Famine?

Molecular diversity of glomalean (arbuscular mycorrhizal) fungi determined as distinct *Glomus* specific DNA sequences from roots of field grown peas
R. Kjøller & S. Rosendahl 1027

Primers for amplification of mt SSU rDNA, and a phylogenetic study of *Botryosphaeria* and associated anamorphic fungi
S. Zhou & G. R. Stanosz 1033

Phylogeny of *Calonectria* based on comparisons of β-tubulin DNA sequences
C. L. Schoch, P. W. Crous, B. D. Wingfield & M. J. Wingfield 1045

Phenotypic variation in a clonal lineage of two *Phytophthora cinnamomi* populations from Western Australia
D. Hüberli, I. C. Tommerup, M. P. Dobrowolski, M. C. Calver & G. E. St J. Hardy 1053

Molecular studies on intraspecific diversity and phylogenetic position of *Coniothyrium minitans*
S. Muthumeenakshi, A. L. Goldstein, A. Stewart & J. M. Whipps 1065

Rapid identification of polymorphic microsatellite loci in a forest pathogen, *Dothistroma pini*, using anchored PCR
R. J. Ganley & R. E. Bradshaw 1075

Strain-specific microsatellite markers in the entomopathogenic fungus *Beauveria brongniartii*
J. Enkerli, F. Widmer, C. Gessler & S. Keller 1079

Are there any substrate preferences in aquatic hyphomycetes?
V. Gulis 1088

Soil salinity and arbuscular mycorrhizal colonization of *Puccinellia nuttalliana*
P. Johnson-Green, N. C. Kenkel & T. Booth 1094

Associations between three fungi on pine needles and their variation along a climatic gradient
F. Gourbière, A. van Maanen & D. Debouzie 1101

Production of β-carotene by *Sclerotinia sclerotiorum* and its role in sclerotium differentiation
C. D. Georgiou, N. Tairis & A. Polycratis 1110

Observations on *Biatoropsis usnearum*, a lichenicolous heterobasidiomycete, and other gall-forming lichenicolous fungi, using different microscopial techniques
M. Grube & A. de los Ríos 1116

New and interesting *Biscogniauxia* taxa, with a key to the world species
Y.-M. Ju & J. D. Rogers 1123

Xylaria cranioides and *Poronia pileiformis* and their anamorphs in culture, and implications for the status of *Penzigia*
Y.-M. Ju & J. D. Rogers 1134

Two new species of *Inocybe* (*Cortinariales*) from Spain, with a comparative type study of some related taxa
F. Esteve-Raventós 1137

New species and combinations of cuboid-spored *Entoloma* species from Madagascar
G. Eysstartier, B. Buyck & R. Courtecuisse 1144

The genus *Tulasnella* with a new species in the Patagonian Andes forests of Argentina
A. G. Greslebin & M. Rajchenberg 1149

Book reviews
Plant-Fungal Pathogen Interaction – The Deuteromycetes: mitosporic fungi 1152

PART 10 OCTOBER 2001

Mycological Research News 1153
In this issue – Pseudotulostoma: the find of the century? – Erratum 1153

Phytophthora ramorum sp. nov., a new pathogen on *Rhododendron* and *Viburnum*
S. Werres, R. Marwitz, W. A. Man in't Veld, A. W. A. M. De Cock, P. J. M. Bonants, M. De Weerdt, K. Themann, E. Ilieva & R. P. Baayen 1155

Phytophthora pistaciae sp. nov. and *P. melonis*: the principal causes of pistachio gummosis in Iran
M. Mirabolfathy, D. E L. Cooke, J. M. Duncan, N. A. Williams, D. Ershad & A. Alizadeh 1166

Phylogenetic analysis of nuclear and mitochondrial rDNA sequences supports the view that loculoascomycetes (*Ascomycota*) are not monophyletic
R. Lindemuth, N. Wirtz & H. T. Lumbsch 1176

Molecular data support the *Laboulbeniales* as a separate class of *Ascomycota, Laboulbeniomycetes*
A. Weir & M. Blackwell 1182

Molecular chemotaxonomy of *Daldinia* and other *Xylariaceae*
M. Stadler, H. Wollweber, A. Mühlbauer, Y. Asakawa, T. Hashimoto, J. D. Rogers, Y.-M. Ju, H.-G. Wetzstein & H.-V. Tichy 1191

Biometry or oospores and intraspecific variation of four *Pythium* species
K. Møller & J. Hockenhull 1206

Development of *Sphaerotheca fusca* on susceptible, resistant and temperature-sensitive resistant melon cultivars
A. Pérez-Garcia, L. Olalla, E. Rivera, D. Del Pino, I. Cánovas, A. De Vincente & J. A. Torés 1216

Genes with increased transcript levels following harvest of the sporophore of *Agaricus bisporus* have multiple physiological roles
D. C. Eastwood, C. S. Kingsnorth, H. E. Jones & K. S. Burton 1223

Ectomycorrhizas and molecular phylogeny of the hypogeous russuloid fungus *Archangeliella borziana*
M. Peter, U. Büchler, F. Ayer & S. Egli 1231

Vascular bundle colonisation by *Neotyphodium* endophytes in natural and novel associations with grasses
M. J. Christensen, R. J. Bennett & J. Schmid 1239

Autolysis and ageing of *Penicillium chrysogenum* cultures under carbon starvation: glutathione metabolism and formation of reactive oxygen species
L. Sámi, T. Emri & I. Pócsi 1246

Adhesion of conidia and germlings of the plant pathogenic fungus *Bipolaris sorokiniana* to solid surfaces
D. Apoga, H.-B. Jansson & A. Tunlid 1251

Binding of cobalt and zinc by organic acids and culture filtrates of *Aspergillus niger* grown in the absence or presence on insoluble cobalt or zinc phosphate
J. A. Sayer & G. M. Gadd 1261

Pseudotulostoma, a remarkable new volvate genus in the *Elaphomycetaceae* from Guyana
O. K. Miller jr, T. Henkel, T. Y. James & S. L. Miller 1268

Merimbla humicoloides sp. nov. from conifer forest soil of Veracruz state, Mexico
G. F. Bills, R. M. Arias, M. Reyes & G. Heredia 1273

Book reviews 1280
Molecular and Cellular Biology of Filamentous Fungi – Integration of Modern Taxonomic Methods for Penicillium and Aspergillus Classification – Dictyostelium

PART 11 NOVEMBER 2001

Mycological Research News 1281
In this issue – Non-lichenized ascomyete lineages are derived from lichenized ancestors – Changes in Coprinus *questioned*

Presidential address
Berkeley's legacy – who cares?
S. Buczacki 1283

Protoplast preparation and transient transformation of *Rhizoctonia solani*
H. L. Robinson & J. W. Deacon 1295

ITS–RFLP and ITS sequence diversity in *Pisolithus* from central and eastern Australian sclerophyll forests
I. C. Anderson, S. M. Chambers & J. W. G. Cairney 1304

The use of RAPD–PCR analysis for the differentiation of *Mycosphaerella* species from *Eucalyptus* in Australia
A. J. Carnegie, P. K. Ades & R. Ford 1313

AFLP and RFLP (RG57) fingerprints can give conflicting evidence about the relatedness of isolates of *Phytophthora infestans*
A. I. Purvis, N. D. Pipe, J. P. Day, R. C. Shattock, D. S. Shaw & S. J. Assinder 1321

Comparison of genotypic diversity in native and introduced populations of *Sphaeropsis sapinea* isolated from *Pinus radiata*
T. Burgess, B. D. Wingfield & M. J. Wingfield 1331

Hemibiotrophic infection and identity of the fungus, *Colletotrichum destructivum*, causing anthracnose of tobacco
S. Shen, P. Goodwin & T. Hsiang 1340

Factors influencing the competitive saprophytic ability of *Trichoderma harzianum* Th2 in mushroom (*Agaricus bisporus*) compost
J.-M. Savoie, R. Iapicco & M. L. Largeteau-Mamoun 1348

Purification and characterization of an extracellular mutanase from *Trichoderma harzianum*
A. Wiater, J. Szczodrak & J. Rogalski 1357

Role of erythroascorbate and ascorbate in sclerotial differentiation in *Sclerotinia sclerotiorum*
C. D. Georgiou & K. P. Petropoulou 1364

Degradation of host components by a metallopeptidase of *Cryptococcus neoformans*
M.-H. Rodier, C. Imbert, G. Daniault & J.-L. Jacquemin 1371

Variations in structure of aerial and submerged rhizomorphs of *Armillaria luteobubalina* indicate that they may be organs of absorption
M. Pareek, L. Cole & A. E. Ashford 1377

Occurrence and distribution of endophytic fungi in a mangrove community
V. Kumaresan & T. S. Suryanarayanan 1388

Sistotremateae (*Corticiaceae, Aphyllophorales*) of the Patagonian Andes forests of Argentina
A. G. Greslebin 1392

A new genus *Myconymphaea* (*Kickxellales*) with peculiar septal plugs
Y. Kurihara, Y. Degawa & S. Tokumasu 1397

A new *Chionosphaera* species associated with conifer inhabiting bark beetles
R. Kirshner, D. Begerow & F. Oberwinkler 1403

PART 12 DECEMBER 2001

Mycological Research News 1409
In this issue – Where are the missing fungi? – New basidiomycetes from the Greater Antillies – The biodiversity of fungi on Juncus roemerianus

A new fungal phylum, the *Glomeromycota*: phylogeny and evolution
A. Schüßler, D. Schwarzott & C. Walker 1413

Where are the missing fungi?
Edited by K. D. Hyde

The magnitude of fungal diversity: the 1.5 million species estimate revisited
D. L. Hawksworth 1422

Where are the missing lichens?
H. J. Sipman & A. Aproot 1433

The relationships and possible distributional patterns of boletes in south-east Asia
R. Watling 1440

Host-specificty, host-exclusivity, and host-recurrence in saprobic fungi
D. Zhou & K. D. Hyde 1449

Fungal communities on decaying palm fronds in Australia, Brunei, and Hong Kong
Yanna, W. H. Ho & K. D. Hyde 1458

Fungi on endemic plants of Mauritius
R. Dulymamode, P. F. Cannon & A. Peerally 1472

Biodiversity in the Cape Floral Kingdom: fungi occurring on *Proteaceae*
J. E. Taylor, S. Lee & P. W. Crous 1480

Diversity of fungi on six species of *Gramineae* and one species of *Cyperaceae* in Hong Kong
M. K. M. Wong & K. D. Hyde 1485

Fungal communities on submerged wood from streams in Brunei, Hong Kong, and Malaysia
W. H. Ho, K. D. Hyde, I. J. Hodgkiss & Yanna 1492

Fungal endophytes in dicotyledonous neotropical trees: patterns of abundance and diversity
A. E. Arnold, Z. Maynard & G. S. Gilbert 1502

Endophytic fungi of wild banana (*Musa acuminata*) at Doi Suthep Pui National Park, Thailand
W. Photita, S. Lumyong, P. Lumyong & K. D. Hyde 1508

Where are the missing fungi? Does Hong Kong have any answers?
K. D. Hyde 1514

Phylogeographic divergences of nuclear ITS sequences in *Coprinus* species *sensu lato*
K. S. Ko, Y. W. Lim, Y. H. Kim & H. S. Jung 1519

Establishment of single-genotype axenic cultures from the haploid stage of the pine blister rust *Cronartium flaccidum*
S. Moricca & A. Ragazzi 1527

Obituary
Edred John Henry Corner (1906–1996): a pioneer in tropical mycology
R Watling 1533
Sudden death of BMS President, Stephen Moss 1536

Contents Vol. 105 (1–12), January–December 2001
